DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bolker (US 3,943,575). Bolker discloses a head covering with a pair of bilaterally symmetrical twin pieces (36, 36') with edges thereof combined together, a gap 30 being formed at a position corresponding to that of each eye in respective pieces, a jutting portion being formed below each gap, a recess portion 28 along the peripheral stitch line of the cloth hood, another recess portion (Figure 3 Detail 4) being defined oppositely to the foregoing recess portion, top and bottom hood being shaped in arc style. It is inherent that the top and bottom of the hood is shaped in arc style since the neck and head are round.

As to claim 2, Bolker discloses (Col. 2 line 25) that the side pieces (36, 36') are made of a nonwoven.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Blaur (US 2,103,608), Wilkie (US 2,129,454), De Grazia (US 2,567,192), Walkuski (US 4,334,325), Fruge (US 5,881,389), Singer (US 4,589,408), and Austin (US 5,628,065) disclose the state of the art.
